Dehumanated. brainwashed. desensitised
We rape the earth. contaminate the blind
Fuck you. fuck them evolve your fucking mind

Dysfunctional. deadly. degenerate
Exterminate everything you find
Fuck you. fuck them evolve your fucking mind

What do they do but tell us lies
About what the future holds
We can't accept. but we know the truth
Fuck them all

What we're stealing
We can't believe it
Society bleeds
We will heal it
Fate is sealed
Extinction's calling
