Dehumanated. brainwashed. desensitised  
We rape the earth. contaminate the blind  
Fuck you. fuck them evolve your fucking mind

Dysfunctional. deadly. degenerate  
Exterminate everything you find  
Fuck you. fuck them evolve your fucking mind

What do they do but tell us lies

About what the future holds  
We can't accept. but we know the truth  
Fuck them all

What we're stealing  
We can't believe it  
Society bleeds  
We will heal it  
Fate is sealed  
Extinction's calling
