sitting by the lake one night
with nothing to do
just left a party
cause the beer was a foamy brew
I've got a six string by my side
just chillin in the bed
seems like its every night
the same things always said

Its just a.....Boring Night!!
with nothing to do
Its just a.....Boring Night!!
searching for something new

So the weekend rolls right by
and your back in school again
the day is going oh so slow
and its still just 20 to 10
I bet you ggo this feeling
that there is much more to this
but thats the problem with it all
thats just it
