As youâ€™re standing here alone
the world seems to move on her own
your loss has bared you to the bone
a weight like stone upon your heart
And you ooh ooh ooh try to understand
while you ooh ooh ooh cried all night again

She has gone into the void
existence beyond comprehension
whispers through the dark of night
and dreams of her in new dimensions
But you ooh ooh ooh want her by your side
And you ooh ooh ooh miss her all the time

As her face appears before your eyes
in dreamâ€™s disguise, you know, you know, itâ€™s
her

She was there when you were born
she held you in her arms and loved you
nothing can sever this bond
not even shadows, silence, darkness
Cozâ€™ you ooh ooh ooh love beyond this life
And you ooh ooh ooh love her for all times

Mary wonâ€™t you show your face before his eyes
Without disguise, he knows, he knows, itâ€™s you
Itâ€™s you ooh ooh ooh
Itâ€™s you ooh ooh ooh
Itâ€™s you ooh ooh ooh
Itâ€™s you ooh ooh ooh
Itâ€™s you
