Come over my head  
I'm in too deep  
The hours getting late and it's time to leave

I missin' you before you 're gone.  
Don't understand  
what's in my heart  
I look at you and don't know where to start  
Should I let it show  
that something 's changin'  
'Cause it's feeling so right and I hear myself saying:

You don't have to go home tonight  
Stay untill the light of day  
Keep your smiling alive

Lay your heart next to mine  
You don't have to go home tonight  
So hard to go our seperate ways  
So better stay right here  
You don't have to go home.

There's a cool breathe blowing in the curtains way  
I kiss your lips and you touch my face

Is this real  
or on my dreaming?  
I wonder which you're thinkin' I can tell  
If it's a found tomorrow we 'll fix itself.  
'couse I don't wanna loose this feeling  
When I look in your eyes I here myself saying:

You don't have to go home tonight  
Stay untill the light of day  
Keep your smiling alive

Lay your heart next to mine  
You don't have to go home tonight  
So hard to go our seperate ways  
So better stay right here  
You don't have to go home.

There 's no hurry  
I only want this moment

Want this moment to last

If you believe in love  
say where I do

maybe this is a chance:  
You don't have to go.

Chorus

You don't have to go home tonight  
So hard to go our seperate ways  
So better stay right here  
You don't have to go home.

You don't have to go home tonight  
Stay untill the light of day  
Keep your smiling alive

Lay your heart next to mine  
You don't have to go home tonight  
So hard to go our seperate ways  
So better stay right here  
You don't have to go home.

You don't have to go home tonight  
Stay untill the light of day  
Keep your smiling alive

Lay your heart next to mine  
You don't have to go home tonight  
So hard to go our seperate ways  
So better stay right here  
You don't have to go home.
