A cup of coffee in the morning and I get the paper
I check the headlines and decide that I am bored
I check my email and decide to answer later
Another cup of coffee and I drag myself to work
My life is grounded in a firm routine Of coffee sleep and work
I am not boring, I just stick to what I know

I'm sitting there at work and I realized I forgot to
[wake up
Can't be productive when I'm dreaming 'bout a sheep
I go upstairs and get myself another cup of coffee
I get downstairs and then I spill it on the floor
My life is grounded in a firm routine Of coffee sleep and work
I am not boring, I just stick to what I know

Rockabye baby, on the tree top
Lunch hour's over, and I can't stay up
I wanna drink coffee, but that's a mistake
I best switch to decaf or I'll have to
[stay awake
My life is grounded in a firm routine Of coffee sleep and work
I am not boring, I just stick to what I know
