"Go Away"

I, I started thinking of someone else
Cause I, got sick and tired of fighting with myself

Now I gotta remind you.
What's left to say?
We don't need each other (Go away)
The party's over (Leave today)
Don't come over (Go away)
I know we both feel the same.

I, I thought about you a thousand times
Sometimes, we'll be together in my mind
But then I recall, your far away

You got a boyfriend (Go Away)
The party's over (Leave today)
Don't come over (Go away)
I know we both feel the same
Go Away.

The party's over (Leave today)
Don't come over (Go away)
I know we both feel the same
Go Away.
