[Sebastian]

Oh

Two Step

Oh

[Timbaland]

Let me talk to you girl

I'm in your part of town

I call your phone and you're nowhere to be found

You do this everytime

You be in my "A" every single time

The part that kills me

You rather chill with your friends instead of me

Huh But I ain't gone be no clown

I guess I'll call you next I'm in your town

Then you say to me

[Keri Hilson]

So what, I was out with my friends

I'm a grown woman

It's the weekend (Ooooh)

So what, if I don't answer my phone

what if I'm not alone

I'm with him

What's it to you?

[Chorus by Keri Hilson]

I need to get out

You you you you you

are killin' me

you're killin' me

you're killin' me

And I just wanna get out

You you you you you

are killin' me

you're killin' me

you're

what you wanna do, do, do

what you wanna do, do, do

[Keri Hilson]

Tell me

I cannot escape no matter what I do

Can't get away from you

Call me everyday and that was never cool

Gettin' on my nerves, I think it's time you knew

Oh they gave you my number 'cause

In the train you was cuter plus

You looked sad and lonely (Ooooh)

But that's all it was, put you in the game and

Here y'go complainin'

What's up with you?

[Chorus]

[Sebastian]

Like "Whoa" lil' mama

It's the second time I'm callin' your number

I ain't chasin', I ain't even no runner

But you know I push the Hummer in the summer

Huh How you hard to be reached?

I can put you where you hard to be reached

Black sand on the balls of your feet

You can scream "Ain't nobody gone be 'sleep"

This your own private beach *Ha ha*

And when it comes to sex

Just a little bit of love and a little bit of that

Baby push your back where your ribs is at

Share a bowl of crunch berries, how real is that? *Ha

ha*

I'm just jokin' of course

I'm tryin' to put your sex game back on course

If you feelin' dry like you don't get morse

If you ever get a minute holler at your boy
