I'm sick of working the same job every day
It's really getting on my nerves
My boss is fat and he don't know how to work
I hope he gets what he deserves

No, I won't stay late
I'm sick of sweating while you masturbate
Let's get one thing straight
You may not like it but I won't stay late

I'm treated like a slave and laughed at all day long
My job has never been that fun

Sometimes they even let me go on a break
I only wish I had a gun

[Chorus]

And I won't stay late
I won't stay late
Won't stay late, go!

Patience is wearing extremely thin again
I've tried but I can't seem to cope
My boss has cut my paycheck some more
I think I'll kill the stupid dope

[Chorus]

Ha!
