And it will be just the 2 of us cruising  
Bumping me and you when  
You know what we doing, we know what we pursuing  
Let's go and get a steak or two  
Straight with me and straight with you

I feel like we gonn make it through  
Whatever shit they take us through  
Pimp tight, mj, you know you can call on  
If you ever get in trouble, you can put it all on me  
Real is the sound of beat, you know that I'm not trick  
You know that I got heart, you know that you part of it  
After you keep playing on some Friday, Saturday,  
Sunday shit  
I will be the manager you will wanna spend your money  
with  
That's when you wake up and realize it's not the money  
It's companionship, friendship, hard time, funny shit

You call me just in time, I just hopped out the shower  
Yeah you been on my mind, did you get them flowers  
Yeah I got them pictures, they still in my phone  
What you doing later, gonn be at home  
Maybe I slide through, wine and some stick buds  
Maybe we eat some dinner, then go jump in the tub  
Maybe we hit the city, see what all the fuss about  
Whatever's clever, daddy's never tryina stress you out  
My money's not an issue, her money's not an issue  
You know that feeling when somebody let you know they  
miss you  
Good girl, part time bad girl  
I need you twice a day like people need take advil.
