the shadow of love is broken and
i have just let go of everything
but lately i can't get over these
feelings for you and i don't know
what to say to you
i gotta walk away from this
situation i gotta walk away
from this conversation we're
having i gotta move on and
walk away from you
i always try to tell myself to
let you go but when i do i get
pains inside (oh Oh inside)
so know this is what i do
i gotta walk away from this
situation i gotta walk away
from this conversation we're
having i gotta move on and
walk away from you
i cannot break these habits i
have oh these habits of loving
you then hating you no i can't
break them
i gotta walk away from this
situation i gotta walk away
from this conversation we're
having i gotta move on and
walk away from you
oh i gotta walk away5x
