### 1st Verse

This time you better not let me down  
I've waited so long for this moment

When this point in life comes around

When I realized you're not absent

And this is the first time

Since you've been gone

That I feel like sometimes

I had been wrong

About you-----

### Chorus:

So please don't leave

I really need you here with me

I had forgotten to believe

In who you stand to be

I had been waiting so long

That I forgot about you

And everything's gone wrong

'Cause honestly I love you too

### 2nd Verse:

We've been together for a while

I couldn't see me without you  
My life would have no smiles  
And yet this love seems so new  
Sometimes I felt so lonely  
Because we were so different  
At other times it was me only  
To really see what you meant  
To me----

Chorus:

So please don't leave  
I really need you here with me  
I had forgotten to believe  
In who you stand to be  
I had been waiting so long  
That I forgot about you  
And everything's gone wrong  
'Cause honestly I love you too

Bridge:

I wish this was a fairy tale  
And everything would be true  
Happy endings in my mail  
And you

3rd Verse:

Some nights were longer than others  
because I was thinking about you  
I was just a careless lover

Who wished this love was true

My life had been so hard

Until you came along

My heart was badly scarred

But now I feel like I belong

Because of you-----

Chorus:

So please don't leave

I really need you here with me

I had forgotten to believe

In who you stand to be

I had been waiting so long

That I forgot about you

and everything's gone wrong

'cause honestly I love you too
