What are you so afraid of  
Are you scared that someone else could make you find  
yourself  
We all know what happens then  
And I've tried to respect you  
But it's so hard for me to compromise for someone  
else  
I'll keep my mouth shut again

How do you sleep at night  
How do you feel alright

I think you're just afraid of yourself  
And what they all might say  
I don't even know you now  
So I'm gonna go away

I've seen a lot of your kind before  
It makes me sad to think that people live their lives this  
way  
Hiding behind their pride  
I'll have to watch my mouth with you  
And I swear that when I heard you say those words the  
other night I could've died

How do you sleep at night  
How do you feel alright

I think you're just afraid of yourself  
And what they all might say  
I don't even know you now  
So I'm gonna go away

Don't even know why I try to change you  
So accepting you is the only that I can do  
To tolerate this shit  
I wish you weren't so reluctant  
To tear down the walls and persevere  
You wanted some real life well this is it

I think you're just afraid of yourself

And what they all might say  
I don't even know you now  
So I'm gonna go away

I think you're just afraid of yourself  
And what they all might say  
I don't even know you now  
I'm going away
