Beer
And you're not near
Wish you were here
And why
Can't I keep this inside
God knows I've tried

Cuz lately it's my favorite thing to do
Sit alone in my room and pretend that I'm with you
And there's no way that I can run and hide
Gonna feel this way about you and I know it won't
subside

Hey
When you look at me that way
What can I say
You
You're all I wanna do
I hope you feel it too

Cuz lately it's my favorite thing to do
Sit alone in my room and pretend that I'm with you
And there's no way that I can run and hide
Gonna feel this way about you and I know it won't
subside

Whoa, whoa....

Please excuse my attitude
Sorry if I'm being rude
Why can't you just see
I need to be free
And you're bothering me, oh yeah

Whoa, whoa....

Looks like I'll just see you when i can
