I tried hard to speak
But i couldn't breathe
My mind decided
This all was a dream

Where i won't wake up
And find myself in bed

Eyes stuck to the phone

chorus-----
Ring once again
Let me be a friend
Try to explain
This can't be the end
I was too late to know
You were over the edge
As the last words were spoken
I'd never see you again
chorus-----

Absent of tears
My biggest fear
Was that i had failed
And made you disappear

Although i know it wasn't me
On whome you wanted revenge

It doesn't bring me release

chorus (2x)
