"Still Here"

You hold tight to your tomorrow
Cause there's no one here except yourself
I did not come to beg or borrow
Were you expecting someone else?

And I will be back
To soften your fall
And I will be there
For the good of it all

I will not let you feel you wasted all your time
When every day we have is one more day that you'll be
mine
If my life is a flight and a crash in the sea
I'm still here but I cannot speak the words

You say the rain will always follow
When your lost inside yourself
The truth is not so easy swallowed
When you left me for someone else

And I will be there
To soften your fall
And I will be there
In the thick of it all

I will not let you feel you wasted all your time
When every day we have was one more day that you
were mine
If my life is a flight and a crash in the sea
I'm still here (I'm still here)

Born without a heart defect
I am a father's son
One day I will be here
The next I'll be gone
So I could I steal a moment of your time
A dreamer's eyes are always open wide

I will not let you feel you wasted all your time
When every day we have is one more day that you'll be

mine
If my life is a fly and a crash in the sea
I'm still here (I'm still here)

I'm still here
