One step
Around around
Give me your courage
To walk to full length
Athame in hand
Flame at my heart
Gather my sisters
In the circle
Merry Meet
And Merry Part
Whispering riddles
Capturing tales
Understand feelings
Creating new fables
Consecrate the tools
Of where the magick lies
To open up the portal
Through which we see demise
Sisters of the circle
Twisted winding roads
You fill that empty cave
The feeling that I'm alone
