I remember when people used to bring me down,  
I remember when i used to be broken down,  
Now I'm standing with my own two feet,  
I got a lot of things in mind that i want to say.

Don't let nobody bring you down,  
They just hatin' cause they wanna get attention,  
They wanna fill you up with lies that aren't even true,  
They wanna bring you and put you down like a piece of  
book.

Say it loud,  
Scream and shout,  
Don't let anyone put you down,  
Keep your head up high,  
Cause you know that you got this,  
You know that you got this.
