I see you out and you look real down  
But why you gotta be always frontin' on my flavor  
I spit my game and my steelo's tight  
But you think that i am just an ill heart breaker  
Ya think i'm gonna play ya

I'm not a player i just, i just crush a lot  
Don't try to make me out of something that i'm not  
I'm not a player i just, i just crush a lot  
Not quite exactly what i think you thought

Well i'm a gangster that's for sure  
When you see me i'm steady with the blunts and forties  
And though my game is my nature  
I stepped to you and i'm asking you to be my shorty  
You act like you don't know mw

I'm not a player i just, i just crush a lot  
Don't try to make me out of something that i'm not

I'm not a player i just, i just crush a lot  
Not quite exactly what i think you thought  
But i think that i found something in you  
So what you wanna do

It's time to drop some hardcore shit  
It's gotta be bumpin' just like this loc'd with a little  
Gangsta twist and you  
If you feel like you got dissed  
Just put yourself in my shoes for a second and think  
I'm the one who's lonely

I'm not a player i just, i just crush a lot  
Don't try to make me out of something that i'm not  
I'm not a player i just, i just crush a lot  
Not quite exactly what i think you thought  
But i think that i found something in you  
So what you wanna do
