We will burn down your fears  
We'll prevail over all your tears  
If at first you don't succeed  
Trying trying is what you need

You're facing your worst nightmare  
In the spot light you're right in my cross-hair  
Raise your guard!

We won't let you win  
Just wait 'til the fight begins x5

Dance like you've never danced before  
Press A, press B, combo your enemy x3

We will burn down your fears  
We'll prevail over all your tears  
If at first you don't succeed  
Trying trying is what you need

You're facing your worst nightmare  
In the spot light you're right in my cross-hair  
Raise your guard!

My blood is boiling to a point even metal melt x2
