verse 1:

Gotta have the strength to find out
What my life is all about
Will I ever find the truth

A million ways a thousand takes
Tried and tried and failed again
Help me now
Save my soul
Save my soul

chorus:

Take my hand
Break these chains
Lead me away
From my pain

Thereâ€™s not much left of myself
Make me whole again

verse 2:

Try to have the will and power
If only everything
Could be as easy as it seems

I have so much to learn
So much that you can teach me
Help me now
Take control
Save my soul

chorus:

Take my hand
Break these chains
Lead me away
From my pain

Thereâ€™s not much left of myself
Make me whole again
