Sitting alone, just watching the night
Thinking bout how did we get here?
Still I cannot believe, that you ain't by my side
I have nobody else to complete me

[Bridge]

Through the rainy day, I will find my way
It's just like a dream gone wrong
You don't have to say
You'll be back some day
Cause I can believe in hope

[Chorus]

I should be walking away, but I'm gone
I should be leaving you girl, but you're already alone
I should be crying a bit over you
I should be hating you girl
I should be hating you girl

What do I do, to get you off my mind?
Each thought of you drowns in my tears
And it's not in the stars, it's not destiny either
So why am I still begging you please?

[Bridge]

Through the rainy day, I will find my way
It's just like a dream gone wrong
You don't have to say
You'll be back some day
Cause I can believe in hope

[Chorus] x 2

I should be walking away, but I'm gone
I should be leaving you girl, but you're already alone
I should be crying a bit over you
I should be hating you girl
I should be hating you girl.
