Every window in my hometown is empty

And I really don't know why

And the house you used to live in is cold and fallen
down

yeah

And I am tired and I'm weary

And Lord those grey skies bring me down

And I came home for just one reason

To find myself quiet in this town

yeah

And I keep thinking

Oh I'm thinking

Times been my teacher

I don't want to leave you

So please give me one more try

I'm tired and I'm weary

But I want you near me

So please give me one more try

Oh

Just give me one more try

One more try

I don't know where to go for one more try
All the days we spent together doing nothing
It all seems so long ago
I thought the world turned around without me baby
But I just don't know
That I was wrong to go and leave you
To go and leave your world behind
But now time has been my teacher
And now I finally found
I'm thinking times been my teacher
I don't want to leave you
So please give me one more try
I'm tired and I'm weary
But I want you near me
So please give me one more try
Just give me one more try
