So bitch what you do last night alone
i was always on the phone,
spend the time to have your call
masturbation every night,
i don't think i waste my time
but you are with other guys
i don't care if i think " i'm strong "
i don't care if i live all alone

but i always want think of you
so i say "fuck you to"
my girlfriend sucks

play punk rock is not a crime

every day and every night
think about it all the time
alcohol is good for you,
but I never drink with you
never fall in love
say never fall in love
i don't care if i think " i'm strong "
i don't care if i live all alone

but i always want think of you
so i say "fuck you to"
my girlfriend sucks
