I don't think I see you at the first time you first kiss
Is always on my mind , and I know the weather is so
cold

Alone ,the same alone
University or the high school
All the girls naked in the swimming pool
And I know the weather is so cold
Alone ,the same alone

So let's me just for on last time
Stay with you and see your smile
And i fall into the ground
And I don't care of what I find
If I'm wrong or if I'm blind
I fall into the ground

Wake up it's time to go to work
Every days every night to think about your homework
But I guess , I know it's so hard but I guess

Always in my mind

And I know you never scream on the phone anymore
Like a bitch like a whore you calling me no more
But can I be myself and sleep and the floor alone

So let's me just for on last time
Stay with you and see your smile
And i fall into the ground
And I don't care of what I find
If I'm wrong or if I'm blind
I fall into the ground

Can you see my face last night
Ho my love please stand another night
And I don't care of what I find
I fall into the ground
