I wait near the phone always alone
I feel so bad today again why
You don't answer me , you try to forget me
And I drunk to much again
In my mind , I'm not so blind
One more time , I think I waste my time

Give me a good reason why I'm not with you
Say me what you think when you're not with me

Another night with my friends , I think into my head

About her and me today again
Forget your exboyfriend , he is a fucking jerk
Come with me and take my hand girl
In my mind , I'm not so blind
One more time , I think I waste my time

Give me a good reason why I'm not with you
Say me what you think when you're not with me
