The sun rises, it matters not  
Here is the ecstasy in death and certainty in life

In the darkness

Beautiful

Carry the true source of life in mind  
Set up a light in the darkness

The sun rises, it matters not  
Here is the ecstasy in death and certainty in life  
Go then and make of the world something beautiful  
Set up a light in the darkness

The sun sets now  
Go then and make of the world something beautiful  
Set up a light in the darkness

The sun rises, it matters not  
Here is the ecstasy in death and certainty in life

In the darkness
