So put on your shoes we're running away  
I know in time we'll work out what to say  
So bring out the best smile that you have  
And show me you're thankful for what I am

Can we come home?  
And save me from a riot in the backseat  
We're all alone  
Someone please take me home

So let out the air, they set us free  
There is no place I'd rather be  
Dark water on the floor in the backroom  
Kids drowning and there's nothing we can do  
If you let me I would save noone but YOU

Can we come home?  
And save me from a riot in the backseat  
We're all alone  
Someone please take me home

Can we come home ?

Can we come home?  
And save me from a riot in the backseat  
We're all alone  
Someone please take me home
