This is the last scene, there can be no in between
Choose you this day, the side you claim

Time is drawing near, rise up have no fear
Hear our battle cry, "In Jesus Name!"

We choose Christ to live
To die to selfish gain
By His words alone, we are not ashamed
To stand up and to fight
For what is true and right
We dare to shine His light with NO
No Apologies.....No Apologies

Religion says we can't, so let them rage and rant
this is a war, they can not claim

Time is drawing near, so let us make it clear
We'll be victorious in JESUS NAME!

We choose Christ to live
To die to selfish gain
By His words alone, we are not ashamed
To stand up and to fight
For what is true and right
We dare to shine His light with NO
No Apologies!

Count the cost, pick up your cross!
Let it be known to all...

We choose Christ to live
To die to selfish gain
By His words alone, we are not ashamed
To stand up and to fight
For what is true and right
We dare to shine His light with NO
No Apologies.....No Apologies
