Little television child won't you turn on your smile
Get lost in the images of airwaves running wild
Oh forgotten child, explore for awhile
The pictures that place reality on trial

You'll find in the screen's hypnotic glow
A place to hide where you can go
To romp in fields of television snow
& find happy ending's wherte life is but a
Show

Little tv child the real worlds a sham
So don't you cry because you don't understand
Why pain is caused at dad's hand
You'll be safe in your tv explore your mind & you'll be

Free

(Solo....go James...fricking GO man!)

Little tv child the real worlds a sham
So don't you cry because you don't understand
Why pain is caused at dad's hand
You'll be safe in your tv explore your mind & you'll be
Free

Little television child won't you turn on your smile
Get lost in the images of airwaves running wild
Oh forgotten child, explore for awhile
The pictures that place reality on trial
