When I wake up in the morning
Or when I go to bed at night
Suddenly without warning
You know it make me feel alright

The biggest prize in sport
The biggest prize in sport

You know that I will get a prize
It's one especially for me
I could even get a rise
It makes me feel good can't you see
The biggest prize in sport
The biggest prize in sport

A prize surprises all the time
There's only one game that's for me
The sport will make you feel just fine
The very best don't you agree

The biggest prize in sport
The biggest prize in sport
