I don't know why things happen the way they do.
It's just another version of which way to choose.
And I don't know where, where to go.
Don't end it this way.

Can you tell me where I'm headed?
I'm just traveling as fast as I can to where I end up,
you'll never know.
But when you make the right choices, directions just
come natural.
It's in my car or it's in the stars.
I'm running away, away from.

All the things that I'm going through.
All the what-ifs the whys or who's.
What's this world coming to now?
Don't end it this way.
It's all of me and it's all of you.
We don't know what to do.
We are one, we're in this together.
We will be the ones remembered.

All it really is a little mistake, but we can't fix it.
It's too late.
We've gotta decide what to do now.
I'm traveling away from you.
Away from you.
Don't end it this way.

When you make the right choices directions just come
natural.
It's in my car or it's in the stars.
I'm running away, away from.

All the things that I'm going through.
All the what-ifs the whys or who's.
What's this world coming to now?
Don't end it this way.
It's all of me and it's all of you.
We don't know what to do.
We are one, we're in this together.

We will be the ones remembered
