I believe in homicide i rest my case, don't cast a sigh
you'd better believe it, that's the truth of it take it or
leave it, resign to it homicide, homicide, homicide,
homicide no one cares when someone lies they'd
rather say that it's a red alert you'd better believe it,
that's the truth of it take it or leave it, resign to it
homicide, homicide, homicide, homicide homicide,
homicide, homicide, homicide you try to tell me it's his
fault because he's down and let him lose this homicide
all over town i'll take enough but i'll take it down what's
your address, i'll write it down i'll be in touch so don't
leave town in a big black car (solo) homicide, homicide,
homicide i believe in homicide i rest my case, don't
cast a sigh you'd better believe it, that's the truth of it,
take it or leave it, resign to it homicide, homicide,
