In a dark backroom or a crowded street  
In private life or public speech  
Keep everything away from the stifling grip  
The bureaucratic eye, the red tape brigade

It doesn't really matter if you don't wanna stay  
We'll do very nicely without them OK and oh yeah  
Have mercy mercy on me  
Have mercy mercy on me

Never occurred to us that we were doing any wrong  
Never occurred to us 'cause we were harming anyone

On a crowded street or dark backroom  
In private life or public speech  
Keep everything away from the stifling grip

The bureaucratic eye, the red tape brigade

It doesn't really matter if you don't wanna stay  
We'll do very nicely without them OK and oh yeah  
Have mercy mercy on me  
Have mercy mercy on me

Never occurred to 'cause we were harming anyone  
Never occurred to us that we were doing any wrong

Have mercy mercy on me  
Have mercy mercy on me  
Mercy mercy mercy on me

Have mercy mercy on me  
Have mercy mercy on me  
Mercy mercy mercy on me
