

# 999 "Shake"

You try so hard to express  
The words you use are in excess  
But don't you try to run, don't you try to warn  
You can't get nowhere with that ta-ta-ta-talk

You shake  
Shake [x2]

You gotta charge of energy  
It looks like an emergency  
But there's no way out, you're falling down  
And everything's going round and round and round

You shake  
Come on Shake  
Now shake

What's your situation?  
Action in distress  
Come and watch me take off  
Come on, wake up  
It's a shake up

Shake [x3]

Shake [x3]

Shake  
You may shake  
I said shake

Shake [repeat]
