that girl she's so cool
that girl she's the only one for me right
that girl she's so cool
that girl she's the only one for me right
i remember you with your amber hair and hazel eyes
i asked you out
you said yes i was so suprised
then i smiled
you smiled back and you took my hand
i looked into your eyes
you were innocent as a lamb

please don't get mad when i say i can't go out tonight
cause you know i wanna be with you
please don't get mad when i say i can't go out tonight
cause i wanna be with you

that girl she's so cool
that girl she's the only one for me right
that girl she's so cool

that girl she's the only one for me right
so many things in this world can bring me down
when i'm with you, my frowm seems to turn around
your so cool, smart pretty and you're hot
when i'm with you my stomach turns into a knot

please don't get mad when i say i can't go out tongith
cause you know i wanna be with you
please don't get mad when i say i can't go out tonight
cause i wanna be with you

please don't get mad when i say i can't go out tonight
cause you know i wanna be with you
please don't get mad when i say i can't go out tonight
cause i wanna be with you
