### "Making Music For Money"

Visit "[Making Music For Money](#)" on MotoLyrics.com

I woke up this morning  
I was tired as I could be  
I think I was counting my money  
When I should have been counting my sheep.  
My agent he just called me  
And he told me what I should be  
That I should make my music for money  
Instead of makincl my music for me.

I said I know that this may sound funny  
But money don't mean nothin' to me  
I'm gonna make my music for money  
I'm gonna make my music for me.

He said the people buy the love song  
Rock'n'roll but not too long.  
He said  
Girl you've got to be commercial  
If you want to turn the people on  
I said  
turning on the people  
Now that's a beautiful place to be  
But if I spend my time making them up a rhyme  
Who's gonna turn on me?  
I know that this may sound funny . . .

I said I know that this may sound funny . . .

I know that this may sound funny . . .
