Well, it's been a few days now  
So how have you been  
Not that I should know what state you're in  
I could care less

Well, I just bawled my eyes out and feel really relieved  
Not that I threw up enough to fully retrieve  
I'm still a mess

But what really helps a lot is the knowledge  
That it's nothing but the time it takes  
You gave me meals for thought  
And Robin a laughing break  
How quickly will he re-enter the lists?  
Don't correct me if I'm wrong  
I'm sure that grudge exists (Especially his)  
And that mine will make a brilliant song

Well, lately I have not been that close with time  
The weekends seem the worst ever since they're all  
mine

It's hard to get through

Well, congratulations - you entered the Torture Top 3  
And by the way already not happy anniversary

Here's to you and your cool  
Here's to me and my catch-22

But what really helps a lot is the knowledge  
That it's nothing but the time it takes  
It is funny - not at all half as funny as  
To call me Robin by mistake  
Don't correct me if I'm wrong  
I'm sure that grudge exists (Especially his)  
And that mine will make a brilliant song

A brilliant song
