"Cold Dead Winter"

Sitting down I donâ€™t wanna hear a lecture
I just wanna live and maybe see her
Why cant we just live out loud
Be ourselves and just be proud
Sun is shining and the world is mine
We live it up weâ€™re not wasting time
We are young so we will keep on
Never give up and keep on strong

The feelings that we felt arenâ€™t the feeling that we
feel
We gotta feel something to make them real
I cant seem to find my way back home
Do I wanna go back will I go back no

You remind me of a cold dead winter
Every time we touch I seem to remember
It takes me back to a simpler time
A simpler time when we had much simpler minds
