People, people  
Gather around  
People, people  
The plague is coming to town  
Can't you hear them?  
Can't you hear the drums banging?  
The guitar wailing?  
The bass booming?  
The voices screaming?  
Don't you believe me?  
They're here to corrupt your minds

Let you bang your heads  
Turn you into slaves  
The living dead  
On wings of night they fly  
The disease will kill us all, we're going to die  
I'm not crazy, I swear  
I'm simply scared  
Listen to me  
This is a forsaken prophecy  
Today is the day  
The world is consumed by Raven Plague
