Didn't know the way I was feeling
Didn't know what I was suppose to do this time
Lately, I have felt like I have never
Feels like I am loosing my mind

Every time I think about it
I run away
Can you help me to the place

It's the way
It's the way
You're moving in my heart
The way you look into my eyes
Can you say
All the things you're feeling in your soul today
It's the way

Can't remember where this started
But I know that there is freedom in your love
I'm dreaming of you near me, baby
Can you hold me through the nights and always

Every time I think about it
I run away
Can you help me to the place

It's the way
It's the way
You're moving in my heart
The way you look into my eyes
Can you say
All the things you're feeling in your soul today
It's the way

Bridge

I know you are the one
I know that it's begun
You're the love of my life
