"Tribal Dance"

Visit "[Tribal Dance](#)" on MotoLyrics.com

You've got to move it, feel the temperature
Into the rhythm, let the fire burn
So get into it, get into the trance
This is the rhythm, of the tribal dance
The tribal dance!

Feel the force this is your chance
You get controlling to the tribal dance
People started dancing a long time ago
The basic facts, but then again it was slow
Soul, house, hip-hop, and blues
It doesn't really matter which music you choose
Start talking sense this is your chance
To come with me and do the tribal dance

Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on
Come on, come on

You've got to move it, feel the temperature
Into the rhythm, let the fire burn
So get into it, get into the trance
This is the rhythm, of the tribal dance
The tribal dance!

Dance!
