Happy!

Let the gays get married
Let the muslims be
Let everybody be what they wanna be
And the world a be... happy

I was watching on TV
A politician said to me
Marriage should be between a Man... and a woman
I told him shut the hell up
Smoke the marijuana!

Let the gays get married
Let the muslims be
Let everybody be what they wanna be
And the world a be... happy

Just vote for me!

Let the gays get married
Let the muslims be
Let everybody be what they wanna be
And the world a be... happy

Yall vote for me!

If God is the best
Let love be the test
Yall know how the story goes
Coo Coo Coo Ca Coo Coo... and it grows!

Aliens of the Universe
Help me civilize planet Earth!
Um a set you free!

Let the gays get married
Let the muslims be
Let everybody be what they wanna be
And the world a be... happy!

Vote for me!

Let the gays get married
Let the muslims be
Let everybody be what they wanna be
And the world a be... happy!

Remember when you go to the polls
Vote for me...Rod Rotorious
Um a set you free!
Um a turn you loose!

We are Children of World Z!

The end is coming!

Let every body be so we can be happy
Before the end of this motherfucker!
Shit fall off the edge of the sun
And blow up into a fist full of smoke!

Better have you some fun motherfucker
Put the storybooks down it's time to play!
'Cause the end might get here
Before you close your eyes...

Let's live!
That's what we was born for!

Let the gays get married
Let the muslims be
Let everybody be what they wanna be
And the world a be... happy!
