feat. Jamkay

All black and gold, every brother in my team
Like a fashion show
Yeah, let us soar it down night town
...it's lights out!

She said what's up, she said she's been hollering the
whats app
Phone's got so many contacts
If there's no double tick I ain't ...that
She said what's up, she said she's been hollering the
whats app
Phone's got so many contacts
If there's no double tick, goodbye

Shout out to my killers in ghana
Shout out to my killers nigeria
Too bad on my niggas in ghana
Got beef from my niggas in nigeria
My shoot fire's got killer instincts
X man and I'm attackin
Tek charlie, tek green, rek rum, that's technique
Sta and that's f street, st20 tens mean
Getting gas by the good, but my fuel tank's on empty
Smokin that sensei, that bruce lee contingy
My eyes looking chinky, my bitch all slap pinky
Pull forth for my real g's stop with that acid flow
I'ma let a nigga in the uk know...
Man I said that so many years ago
Fuck boy say hearing you,
Till it leave them slums, no clothes or shoes

Take a number or you can take a pin
No matter the form of communication
Get it in
If you met her in the wind again it growing by the
spring
But recycle every summer cause ... she's chattin wind
You can question if I'm real or you can go get paid
Don't matter the outcome, it don't affect me anyway,

No, no, no, no, no

She said what's up, she said she's been hollering the
whats app
Phone's got so many contacts
If there's no double tick I ain't ...that
She said what's up, she said she's been hollering the
whats app
Phone's got so many contacts
If there's no double tick, goodbye

You can count me in, or you can count me out
Just know that when you count me better be in bigger
minds
See you can take a spliff or you can go get paid
Just know that when you're making this money
These bitches change
So you can buy a whip, or save em by your house
Instagram pics, hash tagged the laugh from by
That mad swag curly ass pro
I'll be piffin on that baghdad
No tats not tatty I'm clean shaven
My tour bus any hashback, your girl still my lope
Shakespeare my content, be your girl just a roleplay
Light up that loud, play ...down
So many words for so many fans
I know a girl from north that wanna go south
When I'm killing this magic and I stick no hogwarths
When I ... I think about a lot more...

She said what's up, she said she's been hollering the
whats app
Phone's got so many contacts
If there's no double tick I ain't ...that
She said what's up, she said she's been hollering the
whats app
Phone's got so many contacts
If there's no double tick, goodbye

All black and gold, every brother in my team
Like a fashion show
Yeah, let us soar it down night town
...it's lights out!
