When it's all said and done
Wise that..yeah
And when I bite the..
I guess that's someone else's problem
'cause I got nothing on my mind
'cause I got nothing on my mind

I think that.. I'm just..
because ..I'll think you..
but I should think..
'cause I got nothing on my mind
'cause I got nothing on my mind

Please don't ask what I'm thinking
although thank for your concern.
'Cause my answer may be weak
but I swear I'm alright
why you shine?

Throughout the up and down
...
and when I..because..
I guess that's someone else's problem
'cause I got nothing on my mind
'cause I got nothing on my mind.
'cause I got nothing on my mind.
'cause I got nothing on my mind.
'cause I got nothing on my mind.
