I call out your name  
When running in circles  
Is all I can do.  
I'm playing these games  
Of certain delusions  
Revolved around you

Looking down  
Falling into  
Your eyes

I'm playing these games of circles  
When in doubt of how this really is  
I just look  
And in your eyes is where I can  
See the truth  
Running in circles  
In you

You call out my name  
When running in circles is all you can do  
Is all you can do  
You're playing these games  
Of hurtful delusions  
When no one wants you

Looking down  
Falling into  
Your eyes

I'm playing these games of circles  
When in doubt of how this really is  
I just look  
And in your eyes is where I can  
See the truth  
Running in circles  
In you
