I recognise the car wrecked in my garden  
The burning flames imprinted on my mind  
Already I've lost all that once was mine  
This can't be, follow me until the end of time

Someone send an angel to save me  
I'll ask one more time  
Send me an angel to save me  
I can't see the light

Ooh..

Ohh..

Started with a thousand faces around me  
All alone, nobody by my side  
Now look at what they've done to our minds  
This can't be, follow me until the end of time

Someone send an angel to save me  
I'll ask one more time  
Send me an angel to save me  
I can't see the light

Someone send an angel to save me  
I'll ask one more time  
Send me an angel to save me  
I can't see the light
