"Someone To Love Me"

Visit "[Someone To Love Me](#)" on MotoLyrics.com

(VERSE)

Never had someone that I could depend on
To stand by my side, no one to rely on
All my trust was gone, I felt so alone
I was scared of the pain, it took all my strength to
overcome

(CHORUS)

And I, I waited for so long
For a love to come along
Now I'm ready for something real this time Someone to
love me
Someone to need me
Someone to care for me unconditionally Searching for
someone to love me

(VERSE)

I learned from my past, ready to take a chance
And I'm all cried out, looking for my right path
Done with all these games, ready to make a change
No more lonely nights, looking for the one
Who will love me right 'cuz

(CHORUS)

(BRIDGE)

Searching for the one who loves me
Be there for me, take care of me this time
Searching for the one who loves me
Be there for me, take care of me this time

(CHORUS)
