"On A Sunny Day"

And all the things that I forgot to say
Iâll make it up to you on a sunny day

Everytime I think of you
My heart beats just like a drum
To the tune to the melody
It sticks just like bubblegum

And all the things that I forgot to say
Iâll make it up to you on a sunny day
And all the times the moment past away
Iâll giveâm back to you on a sunny day

Everytime I think of you
My heart beats just like a drum
To the tune to the melody
It sticks just like bubblegum

And all the things that I forgot to say
Iâll make it up to you on a sunny day
And all the times the moment past away
Iâll giveâm back to you on a sunny day
