With you I am strong, with you I can carry on
With you can be what without you I never could reach
Cause life it is not easy,
No life it is not easy, not easy

[Chorus]
But with you, it's alright
With you, it's alright
With you

With you I'm alive, not just breathing
With you I am high, just feel my heart beating
No life it is not easy
Oh life it is not easy

[Chorus]
But with you, it's alright
With you, it's alright
With you, it's alright
I feel like I'm alive
With you, it's alright
I feel like I'm alive
It's alright
I feel like I'm alive

Life couldn't be easy, life couldn't be
Life couldn't be easy, life couldn't be

[Chorus]
But with you, it's alright
With you, it's alright
With you, it's alright
I feel like I'm alive
With you, it's alright
I feel like I'm alive
It's alright
I feel like I'm alive.
